PROYECTOS

Front End Web Developer - Consumedic   may. 2023

This application was designed to connect patients and doctors in order to make an appointment either virtually or in person. The appointment is scheduled once the client has made the payment through Mercado Pago.

Functions:
- Search for physicians by specialty.
- Method of qualification of physicians.
- Sending emails upon registration.
- Mercado Pago integration.
- Physician and patient dashboard

Front: React Js, context, Material UI.
Deploy: https://new-front-silk.vercel.app/ (backend not working)
Repositorio: https://github.com/matibustamante7/Consumedic

Front End Web Developer - Rick and Morty   nov 2023

Application that was intended to consume the Rick and Morty API. I am currently working to create a backend.

Functions:
- Search for characters by name
- Filtering of characters by different attributes
- See details of each character..
- Responsive.

Front: React Js, context, CSS.
Deploy: https://rick-and-morty-diplomatura.vercel.app/
Repositorio: https://github.com/matibustamante7/RickAndMorty_diplomatura
